I used to be a milk carton

Made from recycled milk cartons, many styles and colors available

mandarine
source de joie

WHY RECYCLE MILK CARTON

With every carton you recycle you're contributing to a more sustainable future.

GIVE CARTONS NEW LIFE

1 ton re-PAPER can save
7,000 gallons of water
17-31 trees
4,000 kWh of electricity
60 pounds of air pollutants

REDUCE LANDFILL WASTE

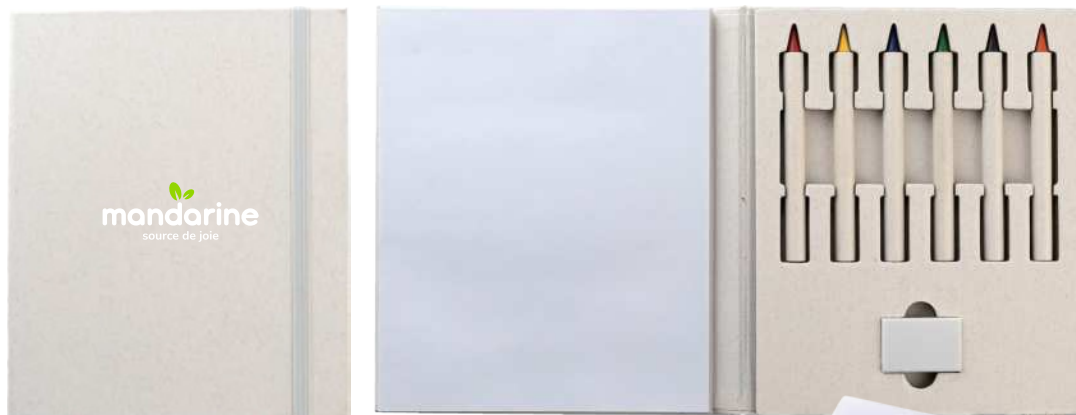

More than 4 lb trash 1 per/day More than
200million tons of garbage each year
Despite the fact that about 75%
of our waste stream is recyclable

SAVE RESOURCES

Recycle just 30% of all municipal waste,
we save the energy equivalent of 11.9
billion gallons of gasoline.
That's the greenhouse gas equivalent of
taking 25 million cars off the road.

Biobased Carbon PU Gift Set

Biobased Materials for a Sustainable Future!

47046

Biobased Carbon PU notebook, metal pen and keychain in gift box.

WHY CHOOSE BIO-BASED PRODUCTS ?

LOWER EMISSIONS: To combat climate change by reducing crude oil dependency

PREMIUM QUALITY: PU technology combines comfortable touch with a quality appearance.

Circular Economy: Uses renewable carbon as a raw material for a more circular economy.

N50232 **NEW**

A5 size soft cover paper notebook, 80 sheets
70gsm bamboo pulp paper
Size: 21x14.5x1.5cm

Bamboo pulp paper is a type of paper made from bamboo fibers. Bamboo, a fast-growing grass, is increasingly being used as a sustainable alternative to traditional wood pulp in papermaking. Overall, bamboo pulp paper offers a sustainable and eco-friendly alternative to traditional wood pulp paper, making it an attractive choice for environmentally conscious consumers and businesses.
